

An Invitation to Advise.

SOCIII Inc. · Advisor Onboarding Deck · For your eyes

What we've built. Where it's going. Why we'd like you in it.

1,000+

Workers (state-augmented)

8

Live Industries

\$35K

Burn in 5 Months

1

Sole Founder

This is not an offer.

This deck is a draft for advisor conversations. Formal advisor agreement and equity grant come with full disclosures and risk factors.

Not an offer to sell securities. This presentation describes a proposed advisor relationship including an equity grant and an optional creator-program path. Nothing in this document constitutes an offer or solicitation to buy or sell any securities. The formal advisor agreement, equity documentation, and any creator-program warrant will be made separately under Reg D 506(b) with full risk factor disclosures and subscription documents.

No projections. No promises. No forward-looking statements. Any dollar figures, multipliers, subscriber counts, or example scenarios in this deck (e.g., \$14K/\$71K/\$143K cash per scale, 4.5% combined equity) are illustrative models of how advisor and creator-program math works. They are not predictions or guarantees of company performance, advisor cash compensation, equity value, or any other outcome. SOCIII Inc. may succeed or fail. Equity may end up worthless.

Advisor accreditation and risk. Equity in private early-stage companies is illiquid and may have no trading market. Equity may be diluted in future rounds, deferred in vesting, or lost in restructurings. Advisor agreements will require accredited-investor representation. Before signing, you will be required to review the full set of risk factors and disclosures provided with the formal documents and should consult your own legal and financial advisors.

Confidential. Do not distribute. This deck is sent in confidence to a specific named advisor candidate with whom SOCIII Inc. has a pre-existing relationship. It is not for public distribution, social media, or forwarding outside that conversation.

SOCIII is a digital worker marketplace.

Like an app store, but for AI workers that do real work. Built by domain experts, used by professionals. We host them, we govern them, the experts who built them get paid.

WHAT IT IS

A marketplace for AI workers.

- 1,000+ AI workers running across 8 industries today
- Aviation, real estate, auto, title, Web3, gov, health, solar
- Each worker does one thing well, in one industry
- Professionals subscribe monthly — Netflix for work
- Every action recorded on an immutable blockchain audit trail

HOW IT WORKS

Two ways to build. Audit trail underneath everything.

- Sandbox: build by conversation, no code
- Terminal: build by code, AI pair-programming
- HOM DAO's blockchain heritage evolved into a DTC audit layer
- Every AI worker output is provable, traceable, defensible
- Critical for regulated work — and for trusting AI outputs

WHERE WE ARE

Live today. Raising seed now.

- Platform live across 8 industries today
- Workers running across all 8 industries today
- Lead investor conversations open this week
- Raising \$1-2M seed round
- Same founder as HOM DAO → TitleApp LLC
- Looking for advisors who can open doors and ship workers

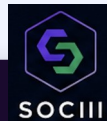

Three Chapters. Lessons Compounded.

SOCIII is the third chapter. HOM DAO (2022-2024) built real-estate dApps in a token-distributed structure — and burned \$35K every week doing it.

TitleApp LLC (2024-2026) productized the title-search insight, but the LLC structure was wrong for institutional capital. The worker platform that emerged from building it became the real product.

SOCIII Inc. (May 2026) shipped 1,000+ workers (state-augmented) across 8 industries on \$35K of operational burn in 5 months — the same dollar figure HOM DAO spent every single week, now stretched across the entire build.

The structural lessons from both prior chapters are baked into this one. Delaware C-corp. Sole-manager governance. Day 0 IP assignment. Ready for the institutional capital the prior structures couldn't take.

01 HOM DAO (~2022-2024)

Distributed ownership of real-regulated assets. Decentralized governance. 167 contributors put capital, time, and network in.

02 TitleApp LLC (~2024-2026)

Productized title search inside a Delaware LLC. The worker platform that emerged became the real product.

03 SOCIII Inc. (2026 →)

Governed AI worker platform. 1,000+ workers live across 8 industries. Delaware C-corp.

Four Things Already True.

Why the next dollar of capital extends what's been built, not resets it.

01

Working Product

1,000+ workers (state-augmented) deployed across 8 industries. SOCIII runs on the platform itself — Alex, Accounting, Marketing, HR, all live.

02

Clean Legal & IP

Delaware C-corp via Stripe Atlas. Sole-manager governance. All pre-formation IP assigned Day 0. IAA signed before repo access. Institutional capital wires same day.

03

Investor-Ready Financials

Founder stock issued. 30% equity pool sized for seed plus advisor grants. Accounting Worker running GAAP-ready records. One disclosed loan (Rosenberg, 4% quarterly). No friends-and-family debt.

04

Capital Efficiency

\$35K in 5 months produced what VC-backed competitors spend \$5M+ to build. ~200x compression vs traditional headcount. The next dollar extends the ratio.

Four Pillars.

Everything in SOCIII sits on one of these. They were built once and ship together.

01

PATENT PENDING

RAAS Engine

Rules Loaded as the Worker Writes

Four-tier rules architecture loaded into the worker as it writes. Compliance by structure, not by review. Every output governed before it commits.

02

PATENT PENDING

Vault & Document Control

Provenance + Permission

Hash-anchored provenance assets (DTCs + Logbook) — chain-anchored for entitled users. Worker-scoped folders with the Document Steward enforcing version and permission. Switching cost grows with every file.

03

Alex (Chief of Staff)

Orchestrates the Workforce

Daily briefings. Pipeline tracking. Routes work across the 7 AI workers and the human team. The single pane of glass that keeps SOCIII running on \$35K of operational burn.

04

PATENT PENDING

Build Without Code

One Conversation, One Worker

Any domain expert builds a worker in one conversation. No code, no engineering team, no waiting. The \$500/hr expert becomes the worker, not the bottleneck.

Not Headcount. An AI Shop.

SOCIII runs on SOCIII. 8 humans set strategy. These are the workers running the company.

HUMANS — 8 (STRATEGY)

Sean Combs — Aviation · RE Development · Technology

Kent Redwine — BofA · Thomas Weisel · capital markets

Scott Eschelman — BuildSF · CA mixed-use developer

Ruthie Clearwater, PhD — UH Nursing · EMS flight

Elise van der Bel — EU ecommerce · DPP regulation

Eric Altshuler — Naval Aviator · FedEx 777 Pilot

Kim Bennett — PropertyRadar · RE data pioneer

Robert Rosenberg — Oracle · infra · legal · compliance

WORKERS — RUN THE COMPANY

Spine

Alex (CoS), Marketing, Accounting, HR, Contacts, Control Center

Fundraising & Investor Reporting

Fundraise worker, IR, cap table, data room

Development & Security

Claude Code dev workers + security scanning. \$5K/mo replaces ~25-person dev team

Creator Community

Onboarding, support, payouts, marketplace ops

Sandbox — No-Code Authoring

Domain experts build workers by conversation

Terminal & Open Source

Engineers pair-program with AI, OSS contributions

Patent & IP

Provisional drafting, prior art search, claim management

+ New workers on demand

Author whatever the day requires

Not a SaaS platform with ChatGPT bolted on. SOCIII is built on SOCIII. The platform builds the platform. We scale without friction.

Why You?

Why we want you in this specifically — and what the role unlocks.

WHAT YOU BRING

You're an expert. And respected.

- Years of professional experience an LLM cannot replicate
- Judgment your peers trust because you have lived the work
- Industry connections to the people SOCIII needs to reach
- Personal network of operators who will benefit from SOCIII
- Credibility in your industry that opens doors a cold email cannot
- A point of view on your industry that shapes what we build

WHAT YOU UNLOCK

What 2% of SOCIII buys.

- Anchor an industry thesis with your name and reputation
- Open doors to operators and buyers SOCIII needs to reach
- Shape the workers SOCIII ships in your industry
- Quarterly 60-minute call with Sean (baseline)
- Optional: ship workers (super-creator path)
- Optional: source enterprise customers (biz dev)

THE ADVISOR ROSTER

Who else has been invited.

- Kent Redwine — Lead Advisor (15%)
- Robert Rosenberg — Data Center / IT
- Eric Altshuler — Aviation (Navy + FedEx)
- Ruthie Clearwater — Nursing / EMS
- Scott Eschelman — RE Development
- Kim Bennett — RE/Title · Elise van der Bel — EU DPP

6-8 advisors at 2% each, 24-month vest, no cliff. Kent at up to 15% milestone-vested as Lead Advisor. Creator-path participation is structured separately as cash economics plus warrants — not additional advisor equity.

The Capital Plan.

\$1-2M Seed. Lead Open.

First investor conversation this week. First \$250K clears inherited debt. Remaining funds commercial launch and 18-month runway. Profitable at month 24 with or without this check.

\$250K Debt Service

Honors outstanding obligations: Robert Rosenberg (\$100K), Chris Dunn (\$15K), HOM DAO inherited AP (~\$100K). Clears the deck before commercial launch.

\$500K Trade Conferences & Industry Presence

Ruthie at NurseCon. Pilots at NBAA. Dealers at NADA. The rooms where professionals gather. We send domain experts, not salespeople.

\$500K Professional Network Activation

Identify and activate 200+ domain experts across all industries — The Nurse, the pilot, the dealer, the inspector. Each one has a trusted community. Includes connector integrations and specialized industry API access.

\$500K 18-Month Runway + Operations

\$25K/mo overhead × 18 months = \$450K. Balance covers legal, accounting, and cap table restructuring. We build with AI, not headcount.

Baseline Buys Real Value. Upside Is Optional.

BASELINE

One 60-minute quarterly call with Sean.
Quarterly review of workers in your domain — flag gaps, errors, industry best-practice misses. Open doors when someone in your network would benefit. Vest covers this. No additional time required.

SUPER-CREATOR (optional)

Build workers in your domain. Earn 75% of subscription revenue + 20% data-fee margin on workers you ship. +0.5% RSU per shipped worker. Your domain expertise becomes recurring income.

BIZ DEV (optional)

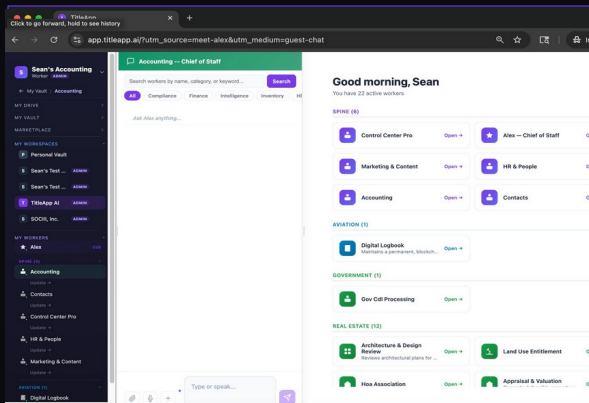

Source enterprise customers. 10% Year-1 ARR on closed enterprise deals you bring. No territorial exclusivity. Pick zero, one, or both upside paths. Nobody is forced. Baseline is the deal.

THE BRAND

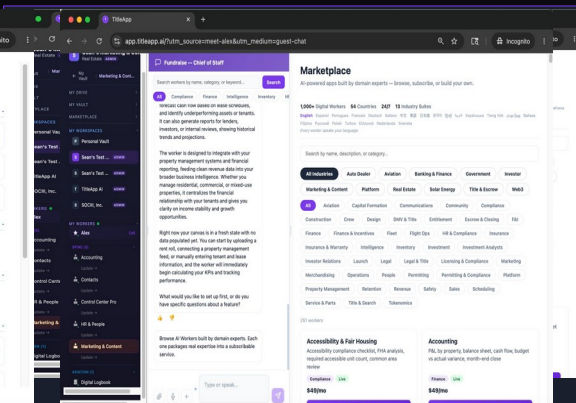

Collaborative Intelligence. Participation.

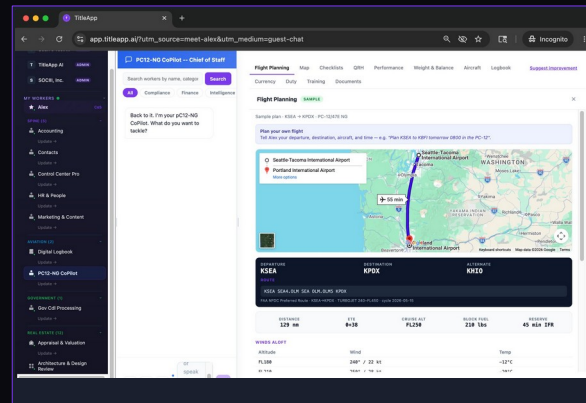

Swiss. Clean. No hype. The brand is the product. The product is the proof.

Workspace • 22 active workers across 6 categories

Marketplace • 1,000+ workers • 13 industries

PC12-NG CoPilot • Flight planning, sample KSEA→KPDX

Three real production screenshots: workspace, marketplace, and an industry-specific worker. This is the brand expressed as product surfaces.

Questions you may be asking.

Topic	Question	Answer
Vesting	What is vesting?	Monthly over 24 months. No cliff. Standard market terms.
Exit	What if I want out?	Keep what's vested. No drama, no friction.
Voting / Tax	Do I vote? What about taxes?	Voting tokens on governance. 83(b) within 30 days of grant — route to counsel.
IAA / COI	What do I sign?	IAA before repo/data access. Outside IP stays yours. Conflicts disclosed upfront.
Sale / Time	Acceleration on sale? What if I'm busy?	Double-trigger acceleration on sale. Baseline = one quarterly call. Upside optional.

4 more FAQs (creators becoming friends, friends becoming creators, etc.) covered in the FAST agreement. Ask anything not answered here.

If You Also Build.

Illustrative annual revenue to advisor — assumes \$29/mo subscription + \$10/sub/mo inference (20% to advisor).

	10 subs	50 subs	100 subs
1 worker	\$2.9K	\$14.3K	\$28.5K
3 workers	\$8.6K	\$42.8K	\$85.5K
5 workers	\$14.3K	\$71.3K	\$142.5K
7 workers	\$20K	\$99.8K	\$199.5K
10 workers	\$28.5K	\$142.5K	\$285K

ADVISOR EQUITY: 2.0% total. Creator-path participation is structured separately — cash economics (75% subscription + 20% data-fee margin) plus warrants, tracked outside the advisor grant. See separate creator agreement.

Illustrative model only — not a projection, promise, or forward-looking statement. See Important Notices.

SOCIIL, Inc. CONFIDENTIAL DRAFT — NOT AN OFFER. Contact: alex@sociil.ai, www.sociil.ai

If This Sounds Like You're In...

There's a link in your email. Click it and tell us what you want.

What the Link Does

Tell us if you want the advisor role.

Pick your tier: Baseline, Super-Creator, Biz Dev, or
any combination.

Or pass on this round — no hard feelings, we'll keep
you in the loop.

1

Click the Link

In your email.

Pick your tier(s)
and confirm

interest. Takes
30 seconds. We
log it and send
the formal docs.

2

Verify ID

Brief KYC/AML
verification for
the equity grant.
Required by
securities law.
We will walk you
through it.

3

Sign

FAST advisor
agreement
delivered
electronically.
Your counsel can
review. 5-year
exercise window
on creator-path
equity.

4

You're In

One 60-minute
kickoff call.
Quarterly
cadence after
that. Async
between calls.
Lead investor
conversations
this week.
